FOREWORD

The Disaster Management Act, 2005 mandates that every district should constitute a District Disaster Management Authority (DDMA) responsible for responding to disasters in the district and also to ensure mitigation measures including planning for disaster. East Garo Hills District has in the recent past experienced flash floods in the year 2014 and the district as a whole is vulnerable to floods, cyclonic storms and earthquakes.

The District Disaster Management Plan (DDMP) of the East Garo Hills District is a document that was last published in 2009 and it gives us pleasure to note that this plan has been prepared after updating the last published plan and also after due consultation with the District Administration & the Line Departments in the District. The District has also been regularly updating the inventory list on the Indian Disaster Resource Network (IDRN).

We, the undersigned thank Mr. Donborlang Chyne, ADPO (DDMA) for his effort in preparing this report. We also want to acknowledge the contribution of all the Departments and the State Disaster Management Authority, in preparation of the plan & hope that this document will be effective in managing disasters in the whole District.

Sd/-

Smti M.S.N. Marak, MCS
Addl. Deputy Commissioner &
(DDMA)
CEO (DDMA)
East Garo Hills, Williamnagar

Shri Cyril V.D Diengdoh, IAS
Deputy Commissioner & Chairman
East Garo Hills, Williamnagar

CHAPTER I

DISTRICT DISASTER RISK MANAGEMENT PLAN: INTRODUCTION

1.1 VISION

The aim of the plan will be fool-proof communication, authentic and accurate database, documented and rehearsed to be activated in the shortest possible time with minimum simple orders and procedures ensuring active participation by Government, Non-Governmental Organisations, Community and volunteers at all levels, making optimal utilization of men, material and resources with no gaps or no overlaps to prevent loss of lives and minimize loss to property ensuring fastest restoration of the situation.

1.2 GOAL

“Sustainable reduction in Disaster Risks & Recovery in all the Blocks of East Garo Hills District, Williamnagar through active participation of Community and Local Self Government”.

1.3 EVOLUTION

Because of the two major disasters that occurred in India - Super Cyclone in Orissa in 1999 and Gujarat earthquake in 2001 resulting in the formation of the Orissa State Disaster Mitigation Authority (OSDMA) and Gujarat State Disaster Management Authority (GSDMA) along with the funding and technical support from UNDP (United Nations Development Programme) implemented Community Based Disaster Preparedness Programme in the 10 Pilot Blocks of Coastal Orissa. The success of the said programme brought Govt. of India, Ministry of Home Affairs and UNDP to an agreement to resume Disaster Risk Management (DRM) Programme in some of the most hazard prone districts of India including 7 districts of Meghalaya. The programme seeks to involve communities, NGOs/CBOs, Educational Institutions and Govt. functionaries in this multi-stake holder disaster mitigation approach where the community and all stake holders will come together to prepare Disaster Management Plan and a pressing need was felt for vast improvement to reduce the risks as well as strengthening the hands of the District Administration by well equipping the District Control Room (DCR).

1.4 RATIONALE

Repeated disasters threaten sustainable development. Disasters destroy decades of human effort and investments, thereby placing new demands on society for reconstruction and rehabilitation. The State of Meghalaya is also prone to disasters like earthquake, landslide, hailstorm, lightening, floods, storms, etc. The State witnessed a major earthquake in June 12th, 1897 and a number of subsequent moderate earthquakes there after. The state of Meghalaya is considered to be situated in Zone V (having the history of highest magnitude (8.7) earthquakes in India till date). Almost all the people living in urban and rural areas don't have much idea on Disaster Prevention & Recovery and more importantly, the Community Based Disaster Risk Management approach.

Mechanism. Since we had no big disasters in recent memories, it was therefore imperative that the state was in need of a Comprehensive Disaster Management Programme including Policy and Plan to guide all aspects of Disaster Management (including pre-disaster preparedness, post-disaster response, short and medium-term physical reconstruction, social rehabilitation and long-term disaster mitigation). A comprehensive DDRMP will strengthen the efforts of the District Administration.

1.5 OBJECTIVES

Disaster causes, at times, sudden disruption to the normal life of a society and causes damages to property and lives to such an extent that normal social and economic mechanisms available to the society get disrupted. In such cases, the existence of a District Disaster Management Plan plays a vital role as follows:

- **To provide effective support and resources to individuals and groups in pre, during & post disaster.**
- **To assist the Line Departments, Block Administration, Community in developing coping skills for disaster management.**
- **To provide an organized, systematic & flexible approach to dealing with a natural calamity.**
- **To disseminate factual information in a timely, accurate and tactful manner while maintaining necessary confidentiality.**
- **It helps to develop immediate and long-term support plans for vulnerable people following a disaster.**
- **To affect or elicit the least possible disruption to the normal life process when dealing with individuals in disaster.**
- **Ensuring active participation by Government, Community, Volunteers and Voluntary**

Organizations at all level making optimal utilization of material and human resources.

- To facilitate mitigation process
- To facilitate convergence

1.6 DISASTER OVERVIEW

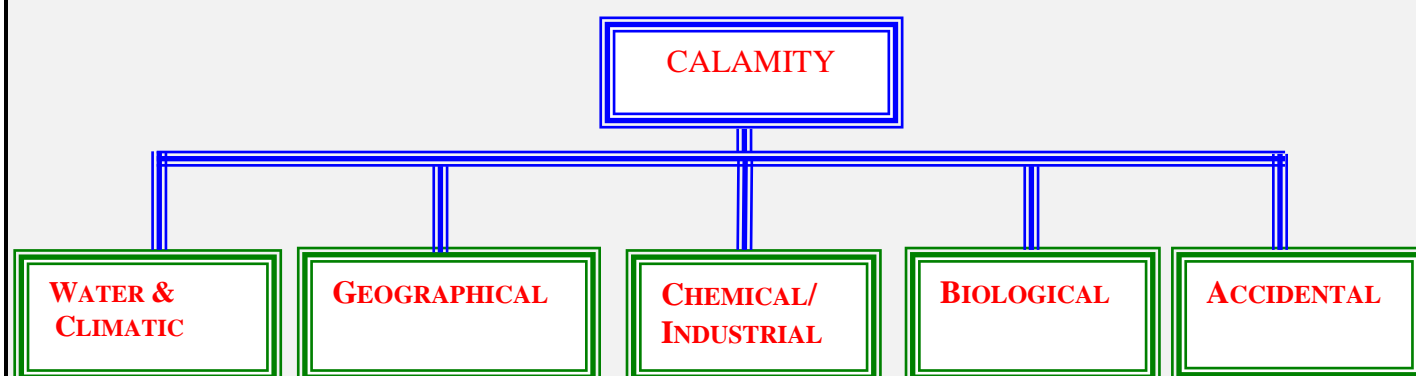

1.6.1 DISASTER - A Serious disruption in the functioning of a society, causing widespread human, material, or environmental losses, which exceed the ability of the affected society to cope using its own resources.

1.6.2 TYPES OF DISASTER: (Experienced in the District)

Common Natural Disasters	Man Made Disasters
 Cyclone	 Fire- House / Forest
 Flood	 Accident- Road
 Earthquake	
 Elephant Depredation	

1.6.3 DEFINITION OF NATURAL CALAMITY

Disaster means a catastrophe, calamity or mishap, a grave occurrence, which causes loss of life, human suffering, damage to and destruction of property, and/or degradation of environment and/or which disrupts the normal functioning of societies, Government and/or communities and/or adversely affects individuals and families with severity and its includes any or more of the occurrences. The same have been grouped into five categories.

- Water and Climate related disasters- Flood, Cyclone, Heavy Rains, and Hailstorm etc.
- Geological disasters- Earthquakes, volcanic eruption.
- Chemical, Industrial and Nuclear disasters.

- **Biological disaster.**
- **Accident related disasters.**
- **Communal Tension**

East Garo Hills District is mostly affected by natural calamities like Cyclone, Flood, and Earthquake.

Flood: When the water flows or rises above and beyond its normal place or course, during the rainy season due to which heavy and widespread inundation takes place it is called Flood. The most common type of flood occurs when a river overflows its bank and the water spreads on the surrounding land called a “riverine flood”.

Cyclone: The term “Cyclone” is derived from a Greek word meaning the coil of a snake. Cyclones are intense low-pressure systems that develop in the oceanic area surrounding Indian Sub-Continent. A tropical cyclone, when fully developed, is a vast violent whirl 150 to 800 Kms. across, 10 to 17 Kms. High, spiraling around a center and progressing along the surface of the sea at a rate of 300 Km. a day or more. The low-pressure systems are termed depending on the intensity of this surface wind.

Depression - 32-50 km /hr wind speed

Deep Depression - 51- 61 km/hr wind speed

Cyclonic Storm - 62-68 km /hr wind speed

Severe Cyclonic - Storm 89-117 km/hr wind speed

Severe Cyclonic Storm/Hurricane - 117+ km/hr wind speed

Typhoon: Where the wind speed as above 200kms per hour.

The wind associated with such storms is among the most violent and causes very heavy rainfall. Also tidal surges are experienced with such storms

Heavy Rain Fall: Heavy rain would mean three days or more of uninterrupted rainfall, the total amounting to at least 3 times that of a month’s average rainfall in the block area. In absence of supporting materials, rain amount from 64.5mm. to 124.4mm per day for continuous three days or more and/or 124.5mm. and above for more than one day may be treated as heavy rainfall.

Earthquake: Earthquakes strike suddenly without warning, and unpredictable. Therefore preventive measures for ensuring safety of buildings, structures, communication facilities, water supply lines, electricity and life are of utmost priority. Earthquakes are caused by natural tectonic interactions. It is the vibration or shaking of the ground caused by a sudden movement or rupture of rock within the earth’s crust.

Hailstorm: Although hailstorms rarely involve physical injury, their economic impact can be severe. The damage appears to be a function of the intensity and duration of storms and the size of the hailstones, which these produce. The damage itself is often produced not only by the impact of falling hailstones, but also by the high winds and torrential rains that is part of the hailstorm.

Fire Accident: Fire accident happen due to several causes like: Housing Pattern, Lose circuit of electricity, Chemical reaction, Road Accident, Thunder, Lightening etc. Houses generally mud-built walls with thatched roofs made out timber, bamboo and straw catches fire easily. In February fire accident becomes frequent; it destroys houses and properties and causes serious distress to the affected people.

Elephant Depredation: Elephant Depredation is a common occurrence in East Garo Hills District where people get injured and even leads to casualties.

CHAPTER II

OVERVIEW OF THE DISTRICT

2.1 LOCATION, AREA AND ADMINISTRATIVE DIVISION

Lies between: Latitude - 25.24 and 26.10-Degree North
Longitude - 90 and 91.3-Degree East

The East Garo Hills District, Williamnagar was created on 22nd October 1976. It covers an area of 2603 sq.km which constitutes about 14% of the State's land surface. This district is bounded by Goalpara District of Assam in the North, West Khasi Hills in the East while on West and South lies the West Garo Hills and the South Garo Hills District respectively. The details of the District administrative division is as follows:

2.2 EAST GARO HILLS DISTRICT AT A GLANCE

- Name of the District : EAST GARO HILLS, WILLIAMNAGAR
- No. of Sub-Division :
- No. of Block : 3 (Three)
 - Samanda
 - Songsak
 - Dambo-Rongjeng
- No. of Revenue Villages : 493
- No. of constituencies & MLAs : 3 (Three)
 - A.C. 43 Williamnagar
Smti Debora Ch Marak
 - A.C 42 Rongjeng
Shri. Sengnam Marak
 - A.C 41 Songsak
Shri. Nihim D.Shira
- Name of the MP : Shri. Purno A Sangma (Lok Sabha)
- No. of ULBs : 1 (one)
 - Williamnagar
- No. of Police Stations : 3 (Three)
 - Williamnagar
 - Rongjeng
 - Songsak

- No. of Out Posts : 1 (One)
 - Mangsang
- No. of Check Post : 1 (one)
 - Nengkhra
- Anti-Dacoity Camps : 2 (two)
 - Samanda
 - Bolkinggre (A.D. Camps are arranged by SP to prevent crime on public demand/ insurgency problem)
- Nos of OGC : 4(four)
 - Dobu
 - Rongmil
 - Dagal
 - Rongsak
- No. CHCs : 1 (one)
 - Dambo-Rongjeng
- No. of PHCs : 16 (Sixteen)
- No. of Dispensary : 2 (Two)
 - Rongrenggiri
 - Samanda
- No. of Leprosy Society : 1 (One)
 - Williamnagar, East Garo Hills
- District T.B Society (RNTCP) : 1 (One)
 - East Garo Hills, Williamnagar
- No. of Fire Stations : 2 (Two)
 - Williamnagar
 - Rongjeng

- Total Area of the District : 1,521 Sq. Km (appox).
- Rural Area : 1,511.28Sq. Km
- Urban Area : 1,521Sq. Km
- Geographical Area : 1,72,500 Hecter
- Cultivable Area : 24,114 Ha.
- Total Paddy Area : 11,567 Ha. :
- No. of Agrl. District : 1 (One)
- Irrigation Potential : Kharif - 1829.00 Ha.
Rabi - .00 Ha.
- No. of the Rivers : 5 (Five)
 - Simsang
 - Manda
 - Ildek
 - Didram
 - Damring
- Population (as per 2011 Census) : 1,61,258
 - Scheduled Tribe – 1,34,754
 - Scheduled Caste - 437
 - General Caste - 26,067
- No. of L.I. Division : 2 (Two)
 - Rongrenggiri L.I. Division
 - Simsanggiri L.I. Division

2.3 DEMOGRAPHIC DETAILS

The total population of East Garo Hills District is 1, 61,258 (20011 Census) and the total of Household is 26,619. The original inhabitants of the district are the Garos who constitutes the major bulk of the population. The Garos prefer to call themselves ‘A.chiks’ or ‘Hill-men’. The other original inhabitants are the Rabhas. Most of the inhabitants are Christians. Recently, many Nepali, Hindu, Muslims and Bihari have migrated and settled in the District.

2.3.1 DEMOGRAPHY (As per 2011 Censuses)

Name of Blocks	Adult		Children in the age group 0-6		Total (only Adult Category)
	Male	Female	Male	Female	
Dambo-Rongjeng	26,634	25,950	5280	5355	52,584
Songsak	26862	26245	5381	5318	53,107

Samanda	16,168	15,470	3294	3063	31,638
TOTAL	69,66,4	67,665	13,955	13736	1,37,329

2.3.2 HOUSEHOLD DETAILS (Census 2011)

Sl. No.	Name of the Block	Rural	Urban	Total
1	Dambo-Rongjeng	9454	Nil	9454
2	Songsak	7037	Nil	7037
3	Samanda	5876	Nil	5876
4	WilliamnagarTown(urban)	Nil	4252	4252
5	Total	22,367	4252	26,619

2.4 SOCIO-ECONOMIC FEATURES

Agriculture is the mainstay of about 90 percent of the population and rice is the most important of the food crops grown in the districts, both in the plains areas where it is grown in wet paddy fields and in the hill areas where it is chiefly grown on jhum fields. Even here, the deteriorating condition of jhum lands and, on the other hand, the awareness of the comparative advantage of wet rice cultivation particularly after the introduction of high-yield varieties has induced a number of farmers in the hill areas to turn away from jhumming.

2.4.1 OCCUPATION (MAIN WORKERS)

A. Cultivators

Name of the Block	Cultivators			
	Male		Female	
	Rural	Urban	Rural	Urban

Grand Total (R&U)	87570	Male-40988,	Female-46582.	

2.4.4 LITERACY RATE (%)

Block/Urban	Male (%)	Female (%)	Total (%)
Samanda	76.22%	64.45%	70.44%
Songsak	68%	57%	63%
Rongjeng	73.76%	62.94%	68.45%
Williamnagar Urban	90.93%%	88.97%	88.97
Total	74.73	64.73%	69.85%

2.5 SALIENT PHYSICAL FEATURES AND LAND USE PATTERN

2.5.1 LAND USE PATTERN

Name of the Block	Grazing land	Forest Land (ha)	Others	Total area
Samanda	-	28050	12598	40648
Songsak	-	33401	19672	53073
Rongjeng	-	22129	10514	32643
Total	-	83580	42784	126364

2.5.2 FORESTS

Sl.No	Name of Reserve Forests	Forest Type	Area in Sq Km.
1.	Chimabangshi R.F	Moist deciduous Kamrup alluvial Sal forest	23.28
2.	Dhima R.F	-Do-	20.72
3.	Dilma R.F	-Do-	2.59
4.	Darugiri R.F	Tropical moist Deciduous Eastern Hills Sal Forests.	10.36
5.	Rongrenggiri R.F	-Do-	36.26
6.	Dambu R.F	-Do-	18.13
7.	Songsak R.F	-Do-	23.31
		TOTAL	134.65 Sq.Km

2.5.3 NATIONAL PARKS

Nokrek National Park with Moist miscellaneous species is also situated under East Garo Hills District. The National Park is having an area of 47.48 Sq. Km. The forest type conforms to the Northern tropical Semi Evergreen Forests (2BISI). The District do not have any sanctuary under its Geographical

area. Total area covered under Reserve Forests and National Park under the District is 202.85 Sq.Km and 7.79% of total geographical area.

2.6 CLIMATE AND RAINFALL

The climate of this district is generally hot with high humidity. May is usually hottest month. December and January is the coldest month of this district. Monsoon generally comes during the month of June.

ANNUAL NORMAL RAINFALL - **200-350 MM.**

TEMPERATURE - **30 DEGREE CELSIUS (MAX)**
- **4-5 DEGREE CELSIUS (MIN)**

HUMIDITY - **30% (MIN)**
- **90%-95% (MAX)**

Month	Actual Rainfall (in mm)									
	2010	2011	2012	2013	2014	2015				
January	--	3.32	42.9	0.00	00.00	00.00				
February	--	2.95	0.00	0.00	1.21	00.00				
March	102.3	15.10	0.00	1.50	6.93					
April	463.5	91.70	297.4	176.8	30.76

September	160.51	214.30	747.9	333.9	1001.20					
October	176.9	00	193.7	165.16	22.88					
November	6.4	7.60	1.3	00.00	0.00					
December	15.6	00	00	00.00	0.00					
Total	3182.9	1737.40	3098.5	2603	3225.78					

2.7 AGRICULTURE AND CROPPING PATTERN

The major crops raised in the Garo hills are paddy, maize, jute, mesta, cotton, ginger and mustard. Wheat is grown but because of the low demand, much of the yield goes to markets outside the districts.

A Garo woman planting tobacco at Damalgre village

Subsidiary crops are millet, pulses, potatoes, sesamum, chillis, turmeric, arhar, tobacco, tapioca, sweet potato and soya bean.

Vegetables grown included pumpkin, gourd, cucumber, brinjal, onion, peas, carrot, melon, radish, squash, turnip, garlic, beans, cabbage, cauliflower, knol-khol, tomato, etc.

Fruits included papaya, pineapple, orange, pomelo, jack-fruit, litchi, mango, pears, sapota, cashewnuts, bananas, etc. coconut and areca nut are also grown widely.

Near Adugre, en route to Williamnagar, rubber trees have been planted. A Garo man is drying rubber sheets made from latex drawn from the trees.

The increased demand for jute, mesta, mustard, ginger, cotton, rubber and other cash crops has also encouraged farmers to increase the area of cultivation for these crops. Improved road communication and marketing facilities as well as improved methods of cultivation and crop protection have also contributed to the increase in the production of food and cash crops, though these advantages have been offset in certain cases by scarcity of good cultivatable land and fluctuations in the market prices of some items.

The department of Agriculture has come forward with several schemes designed to increased food production, chiefly those involving distribution oh high yield varieties and improved varieties of seed, better soil and water management and plant protection measure

2.8 HORTICULTURE

Due to widespread practice of shifting cultivation and deforestation, the Agriculture Department has taken up Horticulture in the district as the topmost priority. The important fruit crops of the district are oranges, pineapple, litchi, banana, jackfruit and other citrus fruits. Important plantation crops are arecanut, cashewnut, coconut, tea, black pepper, bayleaf, betel leaf and rubber.

The East Garo Hills District with its undulating topography and high intensity of rainfall, suffers acute erosion problem and ecosystem degradation. The problem is further compounded by

unscientific agricultural practices such as jhumming/shifting cultivation on steep slopes, rampant deforestation, burning etc., which has resulted in degradation of land and water resources. With a view to reduce the process, the Government of Meghalaya, through the Soil Conservation Directorate, has taken and is taking up variety of measures that would conserve and protect and which would also make the people aware of the fact that their age-old practices are responsible for the abrupt changes in the ecosystem in this pocket of our globe.

To combat the harmful effects of jhumming, the Soil Conservation Directorate has taken up a major Scheme called the "Jhummia Rehabilitation Scheme", which is designed to offer an alternative method of food production, which would also improve the socio-economic condition of the people of this District.

Apart from the aforesaid major Scheme, the Directorate of Soil Conservation has other Schemes as the former is effectively implemented in the worst jhum affected areas and are briefed as follows.

1. Watershed Management Scheme - in different catchments areas.
2. Cash/Horticulture Crops Development.
3. General Schemes.

The component of works under each scheme are identical; Land Development Programme – terracing, contour bunding, stream bank erosion control, land reclamation, water harvesting, conservation & distribution, irrigation & check dams, gully plugging, afforestation etc., and are being implemented by the Territorial Division. And in regard of Cash/Horticultural Crops Development Schemes, a separate Division called the "Cash Crop Division" under the same Directorate is carrying out the implementation of works.

2.9 IRRIGATION POTENTIAL

Irrigation has so far played only a minimal role in agriculture in the Garo Hills. The topography itself makes alignment and construction of channels difficult and comparatively costly. However, even in areas where the lay of the land is more favourable, irrigation is confined to areas bordering rivers and streams. Farmers in the hills have traditionally depended upon rainfall, the months of heavy rainfall being May to September. The abundant supply of rain during the growing season reduces the dependence on artificial alternatives, except during the brief dry spell before the monsoons. Wherever irrigation is feasible, the Department of Agriculture as well as the Soil Conservation Department has taken up a number of small-scale irrigation schemes and more are being investigated, especially to meet the needs of farmers in areas where double cropping is in vogue.

CHAPTER V

MITIGATION & CONVERGENCE STRATEGIES

5.1 MITIGATION PLAN

(Sector wise Vulnerability Reduction Measures)

5.1.1 INFRASTRUCTURE DEVELOPMENT SECTOR

Sub-Sector	Mitigation Measures	Responsible Department	Time Frame
IEC activities	<ul style="list-style-type: none"> • Distribution of leaflets, posters & wall painting. • Awareness generation in school, colleges, various competitions & rallies • Training to concerned department, DMTs, NGOs etc. • Conduct regular Mock Drill • Plantation Programme 	<ul style="list-style-type: none"> • District Administration • NGOs 	Through out the year
Road	<ul style="list-style-type: none"> • Identification/repair of main & alternative routes • Repair of identified vulnerable points • Conversion of pucca roads to village roads 	<ul style="list-style-type: none"> • Irrigation Dept., PWD & Dist. Adm 	During normal time
Embankment	<ul style="list-style-type: none"> • Strengthening & raising the height of weak embankments, points • Storage of flood fighting material like sandbags, bamboo's mat etc 	<ul style="list-style-type: none"> • Irrigation Department 	During pre flood season
Bridges	<ul style="list-style-type: none"> • Regular maintenance of bridges & culverts 	<ul style="list-style-type: none"> • Irri. Dept • PWD 	During normal period
Safe Shelters	<ul style="list-style-type: none"> • Building of safe shelters • Ensure maintenance of shelters • Identification of shelters like schools, community hall etc • Preparation of moulds & cattle shelters 	<ul style="list-style-type: none"> • District Administration • Health & Animal Husbandry Dept 	During Normal period
Communication	<ul style="list-style-type: none"> • Ensure proper maintenance of Telephone, FAX, WLL phone, Wireless & VHS sets • Installation of VHS/HAM Radio in DCR 	<ul style="list-style-type: none"> • Telecom Dept. • Dist. Adm. 	Normal time

Drinking water and sanitation	<ul style="list-style-type: none"> • Repair/arrangement of defunct tube wells • Arrangement of tankers • Installation of water supply system • Using disinfectants & ensure its regular use 	<ul style="list-style-type: none"> • PHE Dept. 	Through out the year
Power	<ul style="list-style-type: none"> • Ensure proper maintenance of Electric Sub Stations, power grids • Complete electrification through out the District • Install Solar Lamps near safe shelters & ensure its maintenance • Ensure proper & safe electric connections to the consumers & from electric stand posts/transformer 	<ul style="list-style-type: none"> • MeSEB Dept 	Through out the year
Technology dissemination	<ul style="list-style-type: none"> • Ensure proper functioning of internet 	<ul style="list-style-type: none"> • Dist Adm., • Telecom Dept 	Through out the year

5.1.2 HEALTH/ANIMAL HUSBANDRY SECTOR

Sub-Sector	Mitigation Measures	Responsible Department	Time Frame
IEC activities	<ul style="list-style-type: none"> • Distribution of leaflets, posters & wall painting • Conducting meeting/workshop/ orientation to staff, volunteers etc • Awareness generation 	<ul style="list-style-type: none"> • H&AH 	During normal period
Vaccination	<ul style="list-style-type: none"> • Procurement & storage of vaccines • Regular vaccination of domestic animals • Procurement of Refrigerator for Veterinary Hospital • Regular disinfections of tube wells, wells, ponds etc 	<ul style="list-style-type: none"> • H&AH 	During normal period
Training	<ul style="list-style-type: none"> • Training on Health care, Sanitation, First Aid to staff, volunteers etc 	<ul style="list-style-type: none"> • H&AH, Dist Adm. 	During normal time

5.1.2 LIVELIHOOD SECTOR

Sub-Sector	Mitigation Measures	Responsible Department	Time Frame
IEC activities	<ul style="list-style-type: none"> • Distribution of leaflets, posters & wall painting • Conducting meeting /workshop, training to staff, volunteers • Awareness generation 	<ul style="list-style-type: none"> • Agri. Dept • Horti Dept • Dist Adm • NGOs 	During normal period
Agriculture	<ul style="list-style-type: none"> • Alternative cropping • Installation of LI Point • Crop insurance, Provision of credit facilities 	<ul style="list-style-type: none"> • Agri. Dept • Horti. Dept • Banks 	During normal period
Livestock farming	<ul style="list-style-type: none"> • Insurance 		
Fishery			
Horticulture	<ul style="list-style-type: none"> • Providing nursing raising training & Insurance facilities 	<ul style="list-style-type: none"> • Horticulture Dept 	Normal time

5.1.3 INSURANCE SECTOR

Sub-Sector	Mitigation Measures	Responsible Department	Time Frame
IEC activities	<ul style="list-style-type: none"> • Distribution of leaflets, posters & wall painting • Conducting meeting /workshop, training to staff, volunteers • Awareness generation 	<ul style="list-style-type: none"> • Dist. Adm, • Agri. Dept. • Bank 	Normal time
Infrastructure	<ul style="list-style-type: none"> • Maintenance of roads/ building • Maintenance of Dist level godowns 	<ul style="list-style-type: none"> • Dist Adm. 	Normal time
Life & Livelihood	<ul style="list-style-type: none"> • Insure insurance of life, livestock, crop& small business units etc 	<ul style="list-style-type: none"> • Dist. Adm. • Insurance Companies, • Agri. Dept. • Bank, • Veterinary Dept. 	Normal time

5.1.4 PLANNING & RESPONSE SECTOR

Sub-Sector	Mitigation Measures	Responsible Department	Time Frame
IEC activities, Relief & Rehabilitation	<ul style="list-style-type: none"> • Distribution of leaflets, posters & wall painting • Conducting meeting /workshop, training to staff, volunteers • Awareness generation programme • Renewal of Dist Plan at regular interval • Regular mock drill • Timely preparedness on dissemination of warnings, carry out search, rescue & evacuation operations • Shelters to victims • Protection to livestock • Carry out emergency relief operation • Clearance of debris & disposal of dead bodies & maintenance of sanitation • Damage assessment • Taking care of Starvation • Maintenance of law & order • Co ordinance & sharing of information 	<ul style="list-style-type: none"> • Dist Adm. • all line departments • NGOs 	Through out the years

CHAPTER VI

CRISIS RESPONSE STRUCTURE OF THE DISTRICT

6.1 GENERAL ADVANCE PREPAREDNESS

DISTRICT ADMINISTRATION

- 6.1.1 Tabling of District Disaster Management Plan:** A DDMP has been developed for reference by the District Administration in the event of a disaster. The plan aims at reducing loss of life, livestock and property etc and thereby serves as an instrument to reduce the impact of any natural hazard. The plan will be revised each year as for the requirement of needs and response in view of actual field situation and calamity.
- 6.1.2 Setting of Control Room:** The District Control Room is situated inside the premises of District HQ. The Control room should remain functional for 24 hours.
- 6.1.3 Deployment of Country Boat:** Country boat will be deployed at different vulnerable and strategic place for eventual rescue and emergent relief operation. These boats are private boats identified well in advance. These will be requisition at the time of need.
- 6.1.4 Storage and Stock Piling of Emergent Relief:** Rice, kerosene, oil, dal, sugar, polythene sheets, fodder, and medicines will be stored in vulnerable places immediately after the first warning is received. PHE Dept will be ensuring that all drinking water sources like TWs & wells are checked, repaired and disinfectant are used regularly.
- 6.1.5 Weak and Vulnerable Points:** - There are Nos. of weak and vulnerable points. Irrigation Dept will keep sufficient amount of sand bags in readiness to be pressed into service in case of piping or seepage found in weak points.
- 6.1.6 Rainfall Recording Station:** A rainfall Recording Gauge and a register is available in the District Agriculture Office. The concerned Department is responsible of regular recording and dissemination of information to District Administration (Dist Control Room)
- 6.1.7 DDMA/DDMC Meeting:** A District Disaster Management Authority (DDMA)/District

Disaster Management Committee (DDMC), headed by the Deputy Commissioner have been constituted in the District. During emergency, unlike normal period, the Committee will meet at shorter intervals and important decisions and instruction will be made and disseminated quickly to all stakeholders (District Staff, Line Depts, BDMC, VDMC and NGOs/CBOs).

6.1.8 Mock Drill: In order to handle any eventuality with ease, Mock Drills will be conducted at all levels- District, Block and Village levels twice a year, especially before hazard season.

6.1.9 Awareness Generation: Awareness programme on Community Based Disaster Preparedness (CBDP) will be conducted to counter disaster threat collectively and effectively and regular orientation to District, Block, Village, DDMC, BDMC, VDMC, NGOs will also be carried out.

6.1.10 Selection of Flood or Cyclone Shelters /Mounds: There are buildings belonging to Govt. and educational institutions for providing immediate shelter to the evacuated people from affected areas.

6.1.11 District Develop Programme: DDMA/DDMC will ensure that the Disaster Mitigation Plan is carried out effectively at all levels.

6.1.12 Line Departments Meetings: Ensuring meeting of all line Departments in the District on natural calamity before and after hazard season by the Deputy Commissioner is a must.

6.1.13 Transport: Line Depts. having vehicle will keep these in road worthy conditions. Other variables like tyres, tubes, diesel, petrol, bulbs and other important parts of the vehicle will be kept in readiness.

6.1.14 Liaison: Liaison with Army, Civil Defense, CRPF, Police, Home Guards, NCC, NGOs and other charitable organisations should be a regular activity of the DC.

6.1.15 Alternative Communication and Road Networks: The District will be equipped with alternative Telecommunication such as VHF, Wireless, WLL, HAM Radio Sets etc. Alternative energy sources like generator, solar energy etc should be ready.

6.1.16 Provision of Rescue Kits: Rescue Kits will be arranged in consultation with Civil Defense Department. Volunteers will be trained; as well as mock drills will be organized regularly.

6.1.17 Monitoring and Evaluation: The DDMA/DDMC will sit well before onset

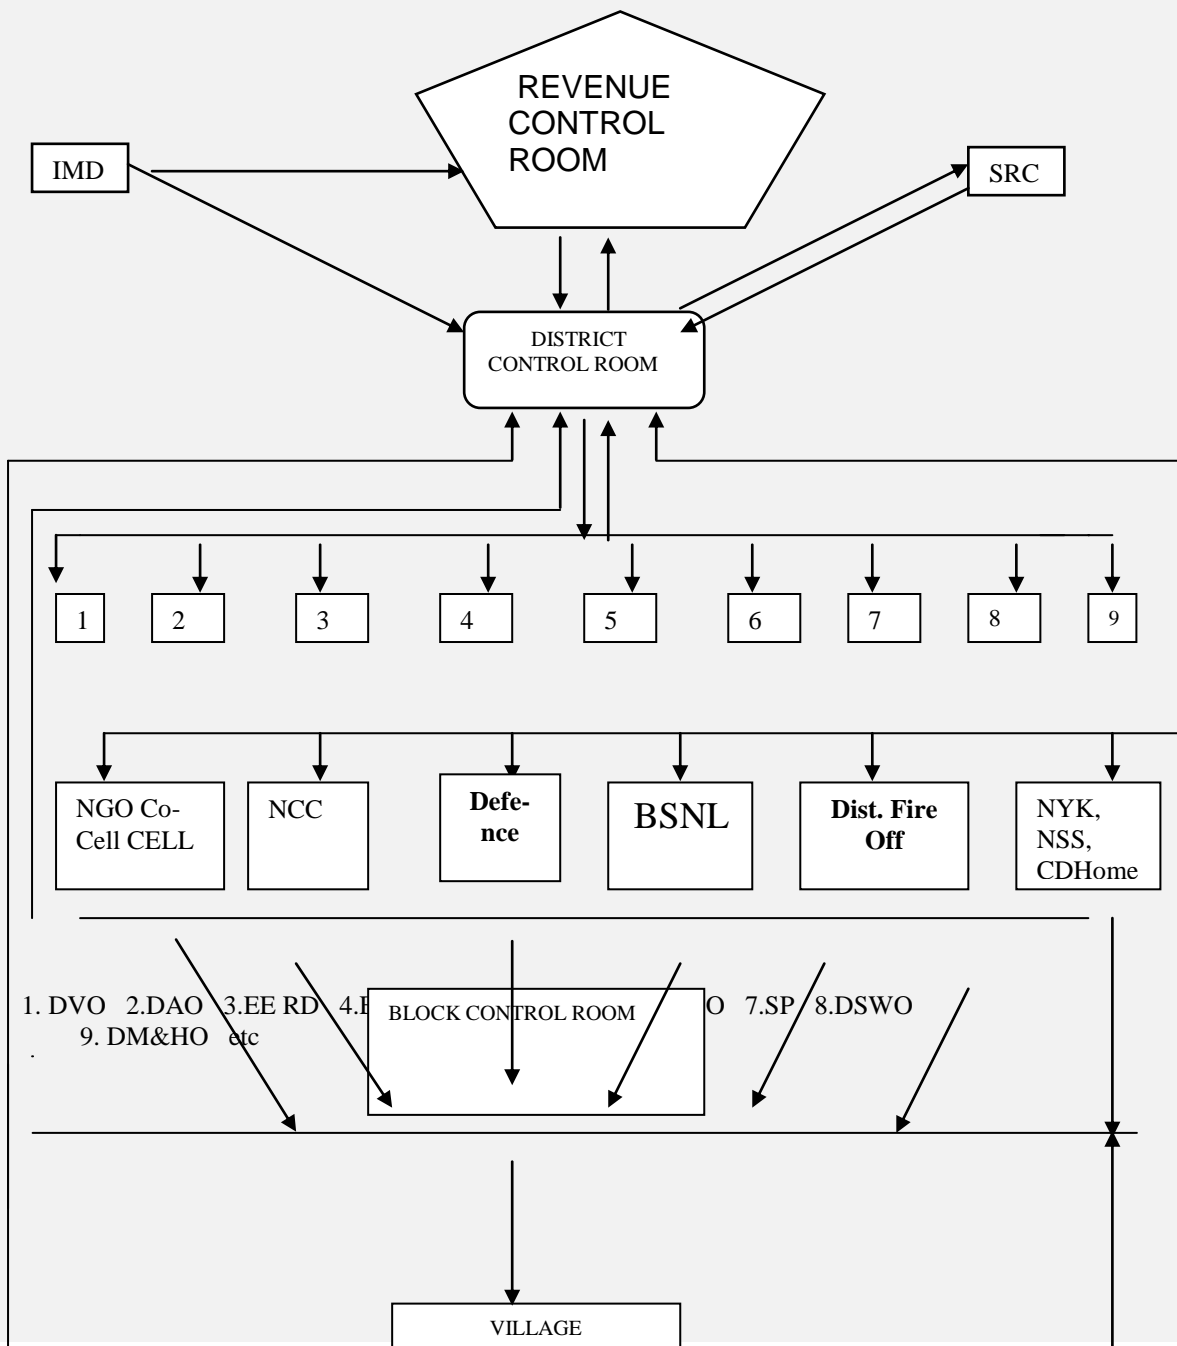

of hazard season to take stock of the things, make necessary arrangement for proper monitoring and evaluation.

6.1.18 Report /Stock taking of all Line Departments: In the Pre disaster meeting all the Depts. will submit their report on “advance preparation” taken of by themselves for incorporation of the same in the District Plan.

6.1.19 Population Registration: - Every new born baby and the name, address of the deceased has to be registered in the village. The District and the Block should have the family wise list of its population. The Angan Wadi Workers would assist in preparation of the list.

6.2 EMERGENCY OPERATION CENTRE (EOC)/CONTROL ROOM

DISTRICT CONTROL ROOM AND LINKAGES WITH OTHER CONTROL ROOMS AT THE STATE AND WITHIN THE DISTRICT

6.2.1 ESTABLISHMENT AND LOCATION OF EOCS

The EOC will be set up in the office of the DC.

6.2.2 CONCEPT OF OPERATION OF EOC AT THE DISTRICT LEVEL

- ◆ The DC at the district level or his/her designee will initiate the activation of emergency services of the EOC.
- ◆ The EOC will be manned by a skeleton staff through out the year. In the event of emergency it will be fully activated with participants from key departments like Health,

Agriculture, Veterinary, Police, Civil Defence etc, apart from the personnel belonging to the Revenue Department.

- ◆ The DC will announce the alternative location in case the District EOC is affected by any eventuality/emergency.
- ◆ Nodal officers of various deptts. Posted at the EOC will be responsible for maintaining communications through radio and telephone with their respective departments at the District and Block levels.
- ◆ The DC will requisition necessary staff as required for effective functioning of the EOC during the time of emergencies.

6.2.3 ORGANISATIONAL SET UP OF EOC

EOC in charge: While the DC will be overall in charge of the EOC, the day –to –day operations of the EOC will vest with an official in charge of Disaster Management of the Revenue Deptt. & he will be responsible for assisting the DC and other nodal officers for overall coordination and effective functioning of the EOC. At the Block Level, Block Development Officer is in charge of the Control Room. During emergency, officers/staffs of other line departments are also deputed on rotation basis in the Control Room.

The State Government will take steps for establishing EOC as per GoI-MHA guidelines in the district H.Q., where all the Emergency Support Functions (ESFs) will be located during emergencies.

6.2.4 COMMUNICATION SECTION

The hotlines, V-SAT and wireless communication will be established at the EOC at the District level with the following:

- ◆ SNA/SRC
- ◆ Police
- ◆ Local Army and Airforce Command
- ◆ Related Departments (Primary Agencies)
- ◆ Block Development Officers
- ◆ Civil Defence

6.2.5 TASKS FOR ALL EOCS

Control Room/EOC works as the nerve centre for all emergency events & disasters, and is the hub of all activities. The principle role involves collection of data, analysis & dissemination of information to relevant organisation. Thus, it can also be called as Information Centre.

- ◆ Determine policies during disaster and post disaster period
- ◆ Adjudicate conflicting, claims and /or request for emergency personnel, equipment, and other resources
- ◆ Designate responsibilities and duties, as necessary to maintain the optimal use of resources
- ◆ Provide operating units with requested resources for sustained operations
- ◆ Maintain documentation of resource allocation and availability
- ◆ Collect the information about the vulnerable areas.
- ◆ Data related to disaster should be shared with all the line departments & other organization.
- ◆ Assessment of damage in disaster prone areas.
- ◆ To collect all the related information's of different Government schemes for smooth management- normal periods & during emergency.
- ◆ Look after rehabilitation & mitigation process.

6.2.6 REFERENCE MATERIALS IN DISTRICT CONTROL ROOM

- ◆ Meghalaya Relief Code
- ◆ District Disaster Mitigation Map (8ft.*6ft.) Painted (pref) in the District Control Room
- ◆ District Disaster Mitigation Plan
- ◆ Copy of all Block Disaster Mitigation Plan
- ◆ Control Room Duty Roaster
- ◆ Register for in and out messages
- ◆ Gauge Reading Register
- ◆ Rainfall Register

- ◆ Guard file of all – important circulars relating to disaster
- ◆ Master list of all Blocks, ULBs and villages with population.
- ◆ List of all shelters with Aerial Locations
- ◆ List of all NGOs in the District
- ◆ List of all Important Telephone numbers
- ◆ Daily situation report register
- ◆ List of Resources Inventory
- ◆ All other printed / documented lists in the District Disaster Management Plan

6.2.7 HARDWARE IN THE DISTRICT CONTROL ROOM

- ◆ One P4 Computer with Printer and Internet facility
- ◆ One VHF set with Battery
- ◆ One Fax Machine
- ◆ Xerox Machine
- ◆ One Emergency Light
- ◆ Land Line Telephone
- ◆ 1000W Genset
- ◆ Loudspeakers
- ◆ Television
- ◆ HAM Radio
- ◆ Notice Board
- ◆ Petromax light
- ◆ Four Wheeler (Jeep)
- ◆ Power Boat

Deputy Commissioner

6.3.4 CHECKLIST

- ◆ **ALERT ALL FIELD OFFICERS:** Alert all the field officers to remain in the HQ
- ◆ **CALL UP THE OFFICERS**
- ◆ **PREPARE A LOGBOOK**
- ◆ **ASSESSMENT OF RELIEF ITEMS (FOOD AND KEROSENE)**
- ◆ **CHECK AVAILABILITY OF SAND BAGS**
- ◆ **VEHICLES:** Requisition
- ◆ **EMPOWER FIELD OFFICIALS** to requisition vehicles.
- ◆ **BOATS:** Requisition of boats within district.
- ◆ Close **EDUCATIONAL INSTITUTIONS** after making an assessment of the magnitude of the emergency.
- ◆ **VETERINARY MEASURES**
- ◆ **AIR DROPPING ZONES**
- ◆ **Each JE of PWD, PHE & IRRIGATION** on the spot.
- ◆ **CIVIL SOCIETY ORGANISATIONS**
- ◆ **MESSAGE TO PUBLIC** over All India radio should be specific.
- ◆ **REGULAR CONTACT** at intervals with, S.R.C., IMD, Home Secretary, Revenue Secretary, PS/ Secretary/ Addl. Secretary to Chief Minister, Chief Secretary and Health Secretary.
- ◆ Written orders shall be issued for identifying places for **starting free kitchens** for at least 3 days.
- ◆ Keep **spare copies of district maps**. Jurisdiction maps of all irrigation divisions shall be kept ready in good numbers.
- ◆ Place requisition with S.P for supply of temporary VHF sets for DM&HO, DVO, EE-Irrigation, DAO & BDO, PWD etc
- ◆ Contact **State Control Room/ Indian** Meteorological Department.
- ◆ Requisition all **IB/ Rest sheds**.
- ◆ **Requisition** School/ College for Army/ Police forces.
- ◆ Direct all **field officers to hire generators** and keep sufficient oil for running them.
- ◆ Direct all police stations to keep **spare batteries for VHF**.
- ◆ Looking at the onset of emergency and after making quick preparations, **convene Emergency**

meeting of important official and non-official agencies. Give them clear instructions on the above manner.

- ◆ Make a **Duty Roster** of Important Officials for uninterrupted functioning of DCR & immediate implementation of the Relief/Rescue Programme.

6.3.5 RECORDS AND EQUIPMENTS OF DISTRICT CONTROL ROOM (DCR)

Name of the Record	Equipments	Govt./ Private

6.3.6 ACTIVITIES OF DISTRICT CONTROL ROOM

Normal Time

- ◆ Identification of Vulnerable areas.
- ◆ Encourage the State/District/Block level officials for preparation of Disaster specific mitigation plans.
- ◆ Preparation / Renovation of District Disaster Mitigation Map
- ◆ During normalcy it works as information center.
- ◆ Availability of Disaster Management Plan.
- ◆ Formation of response group & task forces for handling situations during disasters.
- ◆ Warning and communication equipment to be kept function.
- ◆ Collect information regarding disaster related rules & regulations.
- ◆ Deploy a senior level officer for in charge of the control room.
- ◆ Staff development training on use of sophisticated communication system
- ◆ In and out record for control room
- ◆ Radio / potable T.V with battery connectivity
- ◆ Delegation of responsibilities
- ◆ Display of charts and figures
- ◆ Mock Drill

After Receiving Warning

- ◆ After receiving the message the rescue team must be alert and immediately start the relief operation with the help of NGOs.
- ◆ They should try to contact the police, radio, fire station and food supply department.
- ◆ All the members of the DMTs should be informed to disseminate the warning and the message in the community level.
- ◆ All the NGOs and Self Help Group should be contacted for their involvement.

During Disaster

- ◆ The daily rainfall will be recorded in the rainfall register and transmitted to DC and ADC daily.
- ◆ On receipt of warning inform all concerned with disaster Management regarding the accuracy of the information.
- ◆ Message received from police VHF will also be transmitted to concerned departments for taking immediate action, IMD etc
- ◆ In case of emergency, the officers in charge of the control room would immediately disseminate the information to all the block/ULB head quarters through telephone/ WLL /Specials messengers.
- ◆ Take necessary steps for locating the most vulnerable groups & rescue them with the help of identified active volunteers.

Post Disaster

- ◆ A list should be prepared of affected families.
- ◆ Affected villages should be provided water and food as soon as possible.
- ◆ Houses/people submerged or surrounded with water should be rescued first with the help of the rescue team.
- ◆ Houseless family should be sending to shelter homes, and partially collapsed houses should be provided tents and tarpaulins.
- ◆ Carcass disposal team should clear the dead bodies and carcasses.
- ◆ A list should be prepared of missing persons.
- ◆ Rescue team should help evacuees especially children, disabled, pregnant women, sick and old.
- ◆ Rehabilitation & Mitigation Process.

6.7 CHECK LIST FOR CONTROL ROOM

- ◆ Assessing of duty.
- ◆ Maintain inventory of resources.
- ◆ Provide information that needs it.
- ◆ Service division and assign duties.
- ◆ Receive information on a routine basis and record.
- ◆ Receive preparedness report from various relevant dept.
- ◆ Basing on the reports feedback to the district authority and others.
- ◆ Vulnerable area map displayed.
- ◆ Imp. Phone numbers.

6.8 DEPARTMENT WISE RESPONSE STRUCTURE

6.8.1 ACTIONS BY THE DEPUTY COMMISSIONER

The D.C. will be the Response Coordinator at the district level. He will be responsible to the SRC for the effective coordination of resources or services within the District. The response roles, responsibilities and duties of the District Response Coordinator are:

1. Operationalise the E.O.C. (Chapter VI, 6.2)
2. Undertake assessment of situation.
3. Co-ordinate with E.S.F. Deptts./Agencies for provision of emergency relief and supply.
4. Ensure that consideration has been given to:
 - ◆ Alerting the public to existing and potential dangers arising from serious emergency
 - ◆ The need for evacuation
 - ◆ Other public information
5. Review and dispatch situation reports to the SRC
6. In an emergency, arrange to provide requested resources to the BDOs from:

- ◆ Within the District
 - ◆ Outside the District through the SRC
7. In the event of uncertainty, determine which agency is to perform its statutory response role within the District or within a specified area of the District, where more than one agency/department is empowered to perform that role.
8. In the event of imminent disaster or the event occurring he will take following action:
- ◆ Set up information desks at critical locations
 - ◆ Concerned officers in Revenue, Public Health, agriculture, veterinary, Police, Power, Telecom, PHE, C&RD, R&B, Irrigation, PWD, Civil Supply, to be called to fulfil their respective ESF function.
 - ◆ Concerned departments will be directed to get ready with emergency tool kits and necessary personnel
 - ◆ It will be ensured that all officers remain in head quarters until the situation gets back to normal.
 - ◆ Arrangements for generators, radios, batteries, extra vehicles, Satellite telephones;
 - ◆ Assessment of relief materials required will be made
 - ◆ Adequate fuel for generators and vehicles;
 - ◆ Availability of food and kerosene at block head quarters, storage agents and other inaccessible pockets;
 - ◆ Stock piling of relief materials/ ORS packets at strategic points;
-
- ◆ Private stockists/ wholesalers and godowns will be directed to remain open till the situation gets back to normal
 - ◆ Adequate number of small and big vehicles will be immediately requisitioned and kept in readiness
 - ◆ If necessary, boats will be requisitioned
 - ◆ Vaccines and fodder stock available with the veterinary department.
 - ◆ A rapid assessment of the medicines, bleaching powders and halogen tables will be made and if necessary, more will be requisitioned immediately
 - ◆ Start movement of medicines to hospitals, other points lacking adequate stock
 - ◆ If needed, all the educational institutions will be closed
 - ◆ Lat-long book will be kept handy for identifying the probable air dropping zones and preparation of a list of villages where air droppings may be needed.
 - ◆ Spare copies of block maps will be kept ready

- ◆ Civil society organisations will be alerted and a plan of action for working in coordination with Govt. functionaries will be drawn up.
- ◆ After quick review of the preparations taken, emergency meeting of important officials and non-Govt. agencies will be convened and clear instructions will be given about their expected role
- ◆ Arrangements for evacuation;
- ◆ Registration of persons evacuated or otherwise affected.
- ◆ Provision of relief needs of evacuees where necessary.
- ◆ All search and rescue agencies and volunteers pressed into service.
- ◆ Provision of medical treatment / first aid.
- ◆ Fact gathering for inquests or judicial inquiries.
- ◆ Maintenance of law & order
- ◆ Briefing the press at regular intervals.
- ◆ Maintenance of proper records.

6.8.2 ACTION BY THE BLOCK DEVELOPMENT OFFICER

The BDO will be the Emergency Response Coordinator at the block level. The, responsibilities and duties of the Block Coordinator will be to:

- ◆ Ensure that immediate relief provisions are available and their movement activated in the event of an emergency
- ◆ Regularly apprise the District C.R if the emergency, cannot be controlled within his/her resources.

On occurrence of an emergency he will take following action:

- ◆ Arrangements for generators, radios, batteries, extra vehicles, Satellite telephones to meet emergency situation will be made
- ◆ Adequate fuel for generators and vehicles will be arranged
- ◆ Godowns for storage of relief materials and parking places for trucks carrying relief materials will be inspected
- ◆ Availability of food and kerosene at block head quarters, storage agents and other inaccessible pockets will be checked
- ◆ Private stockists/ wholesalers and godowns will be directed to remain open till the situation gets back to normal
- ◆ Stock piling of relief materials/ ORS packets at strategic points will be Ensured.

- ◆ A rapid assessment of the medicines, bleaching powders and halogen tables will be made and if necessary, more will be requisitioned immediately
- ◆ Start movement of medicines to hospitals, other points lacking adequate stock
- ◆ Location of sites for operation of camps will be identified
- ◆ Adequate number of small and big vehicles will be immediately requisitioned and kept in readiness
- ◆ Position of boats already deployed will be assessed and if necessary additional boats will be requisitioned
- ◆ Assessment of vaccines and fodder stock available with the veterinary Department will be made
- ◆ Lat-long book will be kept handy for identifying the probable air dropping zones and preparation of an advanced list of villages where air droppings may be needed will be made available
- ◆ Necessary arrangements for evacuation will be made
- ◆ All search and rescue agencies and volunteers will be alerted/pressed into service
- ◆ Provision of medical treatment / first aid.
- ◆ Registration of persons evacuated or otherwise affected.
- ◆ Provision of relief needs of evacuees, where necessary.
- ◆ Maintenance of law & order
- ◆ Fact gathering for inquests or judicial inquiries
- ◆ Maintenance of proper records.

6.8.3 EMERGENCY SUPPORT FUNCTIONS (ESFs) IN MANAGING RESPONSE TO DISASTER

The ESFs, comprising of various supporting agencies/depts., will manage and coordinate specific kinds of assistance, which are common to all types of disasters. For each ESF there will be a lead department or agency responsible for the delivery of goods and services to the disaster area. These lead agencies could be supported by a number of other department/agencies. The proposed agencies performing the ESFs will identify requirements, mobilise and deploy resources to the affected areas and assist the districts in their response action under ESFs. The ESFs will come into operation on either receipt of warning of an expected calamity or in the event of a sudden emergency.

<p>The responsibilities, initial activities on receipt of warning and minimum standards for each ESF are given in Table-A. The details of the primary and support agencies for each type of ESF are given below in Table-B.</p>	<p>Setting up Control Room round the clock</p> <ul style="list-style-type: none"> • Arrangement of vehicle and sound system for information dissemination • Proper record keeping and transmission of information to all the level • Ensure functioning of warning system & communication systems • Create awareness with the target groups
<p>1-Early warning</p>	
<p>2-Evacuation</p>	<ul style="list-style-type: none"> • To warn people about the impending danger & to leave for safer places. Mobilize people to go to identified/safer shelter • Organize trained task force members. • To co-ordinate with civil defence-NGOs/Secy. Rajya Sainik Board/Police for support. • Arrangement of boats/vehicles etc. for evacuation. Deployment of Boats for evacuation • Evacuate people of marooned areas and administer emergent relief. • Deployment of police for maintaining law & order & peace keeping during evacuation
<p>3- Search and Rescue</p>	<ul style="list-style-type: none"> • Deployment of Police/Fire Brigade for search and rescue. • Co-ordination with the NCC/NSS/Civil Defence/Rajya Sainik Board etc. for rescue operation. • Ensure availability of the rescue materials. • Prepare inventory of shelter places and map indicating the shelter centres. • Provide & arrange Rescue kit at risk areas

4-Medical aid	<ul style="list-style-type: none"> • Deployment of Medical staff • Stock piling of Life saving drugs/ORS packets/Halogen tablets. • Protocol on medical aid • Treatment of the injured persons and Transportation of the injured to hospitals. • Awareness message to stop the outbreak of epidemics • Disease surveillance and transmission of reports to the higher authorities on a daily basis • Vaccination • Constitute mobile teams and visit the worst affected areas. • Disinfections of Drinking water sources. • Identification of site operation camps. • To obtain/transmit information on natural calamities to District Control Room. • Advance inoculation programme in the flood/Cyclone prone areas. • Arrangement of fodder/medicines for the animals • Vaccination, site operation camps, Carcasses disposal
5-Shelter Management	<ul style="list-style-type: none"> • Identification of Shelter/Temporary shelter at appropriate places and arrangement of tents etc. • Arrangement of Food/Drinking water/Medicine in the shelter places. • Arrangement of transportation • Arrangement for safe shelter for animals • Providing the lighting facilities for shelter places • Deployment of Police Personnel • Temporary supply of safe drinking water
6-Emergent Relief/Free Kitchen Operation	<ul style="list-style-type: none"> • Deployment of vehicle • Procurement and transportation of Relief materials to affected pockets/areas • Provision of kitchen in the shelter camps & affected areas. • Assigning of free kitchen in the shelter camps & affected areas. • Assigning responsibilities to officials for distribution of emergent relief/running of free kitchen. • Coordinating with the NGOs/Other voluntary organization & PSUs / UNDP/ REDCROSS etc for continuing Relief Operation • Monitoring
7- Water Supply and Sanitation	<ul style="list-style-type: none"> • Ensuring supply of safe drinking water arrangement for supply of safe drinking water • Disinfectant for purification of water • Arrangement of mobile team and assigning specific operational area for supply of water • Involvement of volunteers/village level workers inaccessible pockets health awareness campaign

8-Infrastructure Restoration	<ul style="list-style-type: none"> • Formation of task force with specific equipments • Assigning responsibilities for specific areas. • Emergency cleaning of debris to enable reconnaissance. • Coordinate road-cleaning activities to assist relief work • Begin clearing roads, assemble casual labour provide a work team carrying emergency tool kits. • Towing vehicles, Earth moving equipments, cranes, construct temporary roads • Keep National & other Highways clear from disaster effects. • Damage assessment & Monitoring

6.9 CHECKLIST

6.9.1 DISTRICT COLLECTOR & DISTRICT MAGISTRATE

PREPARED ACTION TAKEN	Y/N	REMARKS
Vulnerable and risk assessment map		
Cut off areas with safe route map		
Storing facilities		
List of dealers for food		
List of volunteers		
Control room set up		
Boat and transportation for rescue		
Transportation for food supply		
Repositioning of staff		
Site operation centers/staff		
Evacuation and rescue of people		
Coordination and linkage		
Damage assessment		
Address & telephone list		
Alternative communication system		
Pulling resources from outside if required		
Having network with neighboring Districts		

6.9.2 ADDITIONAL DISTRICT MAGISTRATE

PREPARED ACTION TAKEN	Y/N	REMARKS
Ensuring communication establishment of DCR with Block control rooms / Line Dept. control rooms / Zones / Sub-Zones / Neighboring district control room / Police control rooms / Revenue control room / SRC./ Board of revenue / IMD		
Electricity restoration.		
Transportation / communication restoration.		
Water supply restoration.		
Normalcy restoration.		
Estimation of the loss.		

6.9.3 SUPERINTENDENT OF POLICE

PREPARED ACTION TAKEN	Y/N	REMARKS
Ensuring communication establishment of Dist. Police H.Q. with P.S./ O.P.s / DCR/Divisional Commissioner/Neighboring Police H.Q's .		
Test checking of receipt of transmission of messages		
Taking care of law & order problems in cases it arises during disaster.		
Deployment of guards for supply depots, convoys for relief materials, relief camps, hospitals and medical centers.		
Coordination with the Military service personnel.		
Train volunteers through Mock Drill for search and rescue operation		

6.9.4 DISTRICT MEDICAL & HEALTH OFFICER

PREPARED ACTION TAKEN	Y/N	REMARKS
Staff with contact address		
Check stocks of equipments and drugs		
Train of paramedical staff, health workers for providing minimum health services to the community. Train the village Task Forces on use of medicines and first aid		
Arrange mobile health unit		
Awareness through propagation of healthy practices during disaster time		
Repair of Sub center building		
Registration of Birth, death and other vital events		
Disinfections of drinking water sources/preventive measures		
Installation of telephone connection		
List of private and local doctors		
List of epidemic/risk prone area		
List of AWW/volunteers		
Daily disease report collection and analysis		
Taking help of others/District.		

6.9.5 MEGHALAYA STATE ELECTRICITY BOARD

PREPARED ACTION TAKEN	Y/N	REMARKS
Repair and maintenance of power lines, transformers, weak points		
Ensuring stocking of equipments/accessories		
Arrangement of alternative sources of energy		
Precaution near high voltage equipment installed		

6.9.6 IRRIGATION DEPARTMENT

PREPARED ACTION TAKEN	Y/N	REMARKS
Stockpiling of necessary equipments like sandbags, bamboo etc		
Provision/arrangement of sandbags in risk prone area		
List of volunteers		
Take proper measures for protecting the weak points		
Identification of vulnerable points		
Ensure tubes wells, wells are in perfect condition		
Coordinating with others		
Taking help of community for maintenance of the embankments.s		

6.9.7 PHE DEPARTMENT

PREPARED ACTION TAKEN	Y/N	REMARKS
Important phone numbers		
Provision/arrangement of equipments		
Arrangement of vehicle		
Installation of tube wells		
Avoid Contamination of water & prevent diseases		
Repairing of defunct tube wells & tankers		
Arrangement of mobile water tank		

6.9.8 PWD DEPARTMENT

PREPARED ACTION TAKEN	Y/N	REMARKS
Identification of weak points		
Repair of weak roads, bridges, structures, canals before hazard season		
Stock piling of building materials		

Arrangement of equipments for roads clearance		
List of dealers for building materials		
Promotion/training of people on retrofitting/resistance building		
Plan for vulnerable reduction		
Coordinating with others.		

6.9.9 DISTRICT AGRICULTURE OFFICER

PREPARED ACTION TAKEN	Y/N	REMARKS
List of different areas to be affected by different hazards		
Crop pattern with land holding		
List of irrigation point with status		
Alternative crop		
Train for food preservation and protection		
Assessment of damage		
Provision of seeds and others		
Helping in rising of community nursery for seedling.		

6.9.10 DISTRICT VETERINARY OFFICER

PREPARED ACTION TAKEN	Y/N	REMARKS
Animal population with categories		
Possible problems related to different hazards		
Dealer of feeds/fodder		
List of cow shed		
Site camps for volunteers		
Programme for mass vaccination		
Train the Task Forces to use of medicines		
Coordinating with others		

6.10 CHECKLISTS: DO'S AND DON'TS

6.10.1 OPERATIONAL GUIDELINES OF WHAT TO DO IN THE EVENT OF A FLOOD.

Pre-disaster

- Know the route of the nearest safe shelter
- First Aid Kit should be ready with extra medicines for snake bite and diarrhea.
- Tie up all valuables at the top of the roof
- Radio with extra batteries, torch, ropes to be kept ready
- Store dry ration, kerosene, biscuits, baby food for at least 7 days
- Water proof bags, polythenes to store clothes and valuables
- Be ready with umbrella & bamboo sticks (To protect yourself from snake
- Identify a highland/mound for the cattle & have sufficient fodder for them
- As soon as you receive warning tune to the local news in the radio/TV for the latest update
- Check your emergency kits
- If you have to evacuate pack clothes, essential medicines, valuables, personal papers in a water proof bags
- Inform the DMT member to the place that you are shifting to
- Raise furniture and appliances to a higher place
- Switch off all electrical appliances
- Put sandbags in the toilet bowl and cover all sewage backflow
- Lock your house and take the route suggested
- Don't go into water of unknown depth and current.
- Don't spread rumors. Get authentic data and then announce it
- Don't go into water of unknown depth and current.

Government Preparedness

- Update all the resource inventory
- Control room should be functional for 24 hours
- Identify all the shelter places where people could be evacuated
- Activate all the First Aid and the Rescue & Evacuation team
- See to it that there is no blockage in the flow of the river
- Ascertain the availability of dry food, drinking water & medicines
- Ascertain the fodder availability for cattle
- Mobilize boats, vehicles which will help in evacuation and rescue

operation and also in the distribution of relief

- Prior storage of food grains in the vulnerable pockets
- Identify the relief centers
- Inspect, strengthen and repair all the approach roads and culverts
- Provide mobile wireless sets the villages likely to be cut off
- Arrange adequate hand pumps where wells are likely to be inundated
- Liaison with army, Navy etc
- Prepare maps of alternate route, resources available

During Disaster

Individual

- Drink boiled water or put halogen tablets
- Keep food covered. Don't take heavy meals and eat food that is hot
- Use raw tea, rice water, coconut water during diarrhea
- Be careful of snakebites
- Don't let children stay in empty stomach
- Avoid entering flood water. Stay away from water which is above knee depth.

Government

- Carry out rescue and evacuation
- Operation of control room and provide warning update
- Provide relief materials
- Mobilizing resources like boat, dry food, temporary shelter
- Ensuring the availability of medicines, drinking water, tankers etc
- Coordination at various levels and agencies
- Mobile health units to be made available
- Damage assessment of life, livestock, crop and livelihood.

Post Disaster

Individual

- Listen to the latest flood bulletin before moving from the shelter place
- Use recommended routes to return back
- Dry all electrical equipments before using it
- Avoid touching any loose wire

- Beware of snake bites
- Clean the house and disinfect the surrounding by using bleaching powder

Government

- Rescue people who are stranded
- Restore roads and power supply
- Provide safe drinking water
- Check outbreak of any epidemics
- Mobile health teams to be mobilized
- Take the help of the NGOs
- Carry out damage assessment
- Ensure that adequate, timely and speedy credit is available to the farmers for purchasing agricultural inputs and cattle

6.10.2 OPERATIONAL GUIDELINES OF WHAT TO DO IN THE EVENT OF A CYCLONE.

Pre Disaster

Individual

- Listen to the weather report in radio/TV and if possible disseminate the information to the local people
- Move cattle to high land
- Store adequate food grains, water medicines, kerosene, lantern, matchbox, dry cell
- Keep important papers in the emergency kit
- Keep doors & windows locked and if damaged get it repaired
- Make sure that proper diet is carried for children and old people
- Keep the list of important address and phone number like police, Block Dev. Officer, relatives residing outside that particular place
- Conduct mock drill for yourself and be calm

Government

- See to it that there is no blockage in the drainage system
- Make the Control room functional for 24 hours
- Keep sufficient food grains in the areas likely to be cut off
- Resource inventory mainly of boats, vehicles for evacuation and providing relief to be maintained

- Health departments to be set up mobile health units in the vulnerable pockets likely to be cut off
- Identify the safe cyclone shelters and the route chart for evacuation
- Identify First Aid and Rescue teams
- Ascertain the fodder availability for cattle
- Identify relief centers
- Inspect, strengthen and repair all approach roads and culverts
- Provide mobile wireless sets likely to be cut off
- Liaison with the Army, Navy etc

During Disaster

Individual

- Listen to the radio/community warning system for further details
- Close all doors and windows and stay indoors
- Paste papers on the glass windows to prevent splints flying into the house
- Keep food items and cloths in water proof bags
- Don't venture into the sea
- Wear warm cloths for protection
- Avoid being misled by rumors. Disseminate information that is only official
- Stay away from low lying areas, electric poles, trees
- Switch off all electrical appliances

Government

- Evacuate people to the cyclone shelters immediately
- Arrange a patrolling group who would take care of the property left by the people
- See to it that all vehicles are stopped
- See to it that there is enough food stock, drinking water and common medicines
- Announce the latest bulletin to the community at periodic interval

Post Disaster

Individual

- Don't move out until officially informed
- Use the recommended route for returning
- Check whether there is a gas leak before using the stove
- Dry electrical appliances thoroughly before use
- Get oneself inoculated against diseases immediately at the nearest hospitals and seek

medical help

- Be careful of snake bite
- All debris should be cleared
- Damage assessment to be done

Government: Do's

- Rescue and evacuation process to be initiated immediately for those who are stranded
- Restore roads and power supply
- Provide relief and safe drinking water to the affected population
- Check outbreak of any epidemics
- Mobile health units to be mobilized
- Help from voluntary organizations may be welcomed
- Damage assessment to be carried out

Government: Don't's

- Don't keep loose objects like cans, tins outside
- Don't spread rumors
- Don't stay indoors if asked by the authorities to evacuate
- Don't venture out
- Don't touch loose wires

6.10.3 OPERATIONAL GUIDELINES OF WHAT TO DO IN THE EVENT OF EARTHQUAKE

Pre Disaster

Individual

- Shelves for bookcases etc should be fixed to the walls. Remove heavy objects from shelves above head level as these can topple over and fall
- Locate beds away from the windows and heavy objects that could fall
- Secure applications that could move, causing rupture of gas or electrical lines. Know location of master switches and shut off valves
- Make sure that overhead lightening fixtures are well secured to the ceiling & more heavy unstable objects away from exit routes
- Replace glass bottles with plastic containers or move them to the lowest shelves
- Be aware that with a severe EQ all services such as electric, water will probably be down.

Emergency services may be extremely limited for few days.

- Store emergency supplies like water, food, first aid kit, medicines, tools, portable radio, flash light, batteries, blankets, fire extinguisher etc.

Government:

- Whether preparation of maps on earthquake prone areas done.
- Analysis of seismic risk & zonings for general purposes to be carried out
- Development of seismic codes of design & construction of various structures enforced
- Training of engineers & architects in earthquake engineering principles & use of codes
- Development of simple methods for upgrading the seismic resistance of traditional non-engineered construction and their dissemination to the common builders and owners by mass communication media, demonstration etc.
- Awareness to the community residing in the earthquake prone areas.

During Disaster

Individual

- Keep calm & help others to be calm
- Try to run safely to a nearest open space which is not surrounded by buildings, trees etc but do so with great cautiousness
- Do not use an elevator during the earthquake & do not rush to the roof of the house.
- Choose your exit as carefully as possible
- Once you feel it not possible to get out of the house/building fastly & safely, especially when you are inside a high rise building stay inside calmly
- While inside the house /building, choose a safe place to protect yourself take a shelter under a desk , table , bed or stand below the doorway(in case of an Assam type)
- If you are moving in a vehicle, move immediately to a place which is away from buildings, structures, bridges, electric lines etc & stop the vehicle there. Remain inside the car till the EQ stops
- Do not light candles, gas stove, and cigarette (to prevent any fire from possible leakage of gas.
- Close your gas connection
- Free all your pets, domestic animals etc
- Though the shaking of the ground is frightening do not panic

- Turn your radio on.....

Post Disaster

Individual

- Check yourself for injuries
- Examine all sections of your building & ensure that your building is not in danger of collapsing
- Get everyone of your house if it is found unsafe
- Use a helmet or cover your head with a pillow or rubber sheet while moving around inside the building
- Be prepared for additional earthquake shock called “after shock”
- Stay away from hanging portions of buildings etc and power electric lines and poles
- Close the valve of the gas cylinder and do not use open flames
- Do not switch on electric appliances if gas leakage is suspected
- Wear shoes while moving around
- Attend to injured person and inform the medical authorities as fast as possible
- If you are trapped inside a collapsed building, wait patiently for help. Remain calm and try to develop confidence
- Use a pipe or bamboo to detect any life inside a collapsed building.
- Do not spread rumours
- Turn on your radio

Government:

- Areas affected should be cordoned off
- Affected people should be shifted to safe shelter places that has been identified
- Make arrangement for burning dead bodies and animal carcass
- Mobile health teams to be activated
- Clean the roads blocked.

6.10.4 OPERATIONAL GUIDELINES TO PREVENT FIRE

- Don't leave your gas or cylinder knobs open.
- If you smell gas open your doors & windows. Do not light a match or use electrical switches.
- Keep matches and lighters away from the reach of children.
- Keep inflammable items away from the gas store.
- Practice fire escape drills.

- Take special precautions during celebrations.
- Keep emergency phone no's handy.
- Keep a fire extinguisher handy.
- Avoid wearing loosely fitted and easily inflammable clothing while cooking in the kitchen.
- Teach your family members about fire fighting and fire safety rules.

6.10.5 OPERATIONAL GUIDELINES OF WHAT TO DO IN THE EVENT OF A FIRE

- Know your way out of the building so that you don't land up in a dead end.
- Do not use the gas, stove or switches of any electrical equipment.
- Alert everybody else by sounding the fire alarm.
- Use the fire extinguisher and try to put off the fire.
- If the fire was caused due to petrol, oil or electricity then use sand instead of water to fight the fire.
- In case the building is on fire use the staircases only.
- Try to get out in open air as soon as possible if the building is on fire.
- Do not climb up to the roof of the building.
- If you are caught in a dense smoke don't walk. Crawl on your knees.
- Try to cover your nose and mouth with wet cloth.
- If your clothes catch fire then cover your face instantly and roll on the floor to put out the fire.
- Do not use the lift in case of fire. Use only an open staircase.
